First of all, view a user issue on this:Samsung Galaxy Tab Usa"I have a Samsung Galaxy Tab 2 10.. 1Samsung Galaxy Tab For Mac ShortcutSamsung Galaxy Tab A (8 0) - View MAC Address.. What I suspect is that Kies may have issues on Mac drivers for Kies app for Mac softwares.. 1 And recently I updated my MacBook Pro from 10 7 to Mountain Lion 10 8 When I opened the Kies App it told me there was an update, I selected update, and then I got an error message saying unknown OS version, and

---

now I can't even sync my Galaxy Tab 2 10.. They could not!! But the phone could only be recognised on the Windows software
