The screenshot shows a MySQL IDE window with several tabs. The active tab contains SQL code for creating a full-text index and performing searches. A terminal window is overlaid on the code, showing the execution of a search query and its results.

```
8 -- Создадим полнотекстовый индекс
9 CREATE FULLTEXT INDEX ixFullText ON courses1 (title, description);
10
11 -- Поиск в режиме естественного языка
12 SELECT title, length
13     FROM courses1
14     WHERE MATCH (title, description)
15           AGAINST ('mysql html' IN NATURAL LANGUAGE MODE);
16
17 -- Поиск в режиме естественного языка
18 SELECT title, length
19     FROM courses1
20     WHERE MATCH (title, description)
21           AGAINST ('сервер' IN NATURAL LANGUAGE MODE);
22
23 -- Поиск в режиме логического
24 SELECT title, length
25     FROM courses1
26     WHERE MATCH (title, description)
27           AGAINST ('-mysql +пр');
28
29 -- Поиск в режиме логического
30 SELECT title, length
31     FROM courses1
```

The terminal window shows the following output:

```
2 rows in set (0.00 sec)
mysql> SELECT title, length
-> FROM courses1
-> WHERE MATCH (title, description)
